

HOG PROCESSING
HOG FATEND TURNING MACHINE | TYPE : FTM1000

- The Fatend Turning Machine is specially designed for turning inside-out of the Hog Fatends in an easy, efficient, and safe way, without damaging the Fatends. This will result in high yields and reduced worker fatigue.
 With this machine it is possible to turn inside-out up to 750 Hog Fatends per hour
 The Fatend Turning Machine is manufactured from high quality stainless steel and other corrosion resistant materials. It is also supplied with an electric control panel including Start and a Stop Button.
 This durable and reliable Machine is easy to use, to clean and maintain. It has been carefully designed regarding ergonomic requirements.
 All food process contact surfaces are in accordance with regulation (EC) 1935/2004.
- **SUPPLIED WITH**
 - Electrical Control Panel (CE-Norm NEN-EN-IEC 60204-1) Including Start and Stop Button.
 - Vacuum pump 2.2 KW
 - Suction Pipe
 - Stainless Steel Working table
 - Splash Cover
- **CAPACITY PER HOUR - PER CHARGE**
 - Hog Fatends : Up to 750 Hog Fatends per hour
- **TECHNICAL FEATURES**
 - Execution : AISI 304 stainless-steel and other corrosion resistant materials.
 - Dimensions : ±1.770mm x 1.170mm x 2.000mm (Length x Width x Height)
 - Installed Power : •3 Phase/50Hz •U=400V •P=2.2kW.
 - Electro Technical Materials : In accordance with NEN-EN-IEC 60204-1_2006; IP-Classification: Motors IP55 - Switches IP65.
